OF US
DIES”

Safe & Sustainable

Help for the industry - from the industry

Every year 13 million tonnes of completely unused building materials are thrown away. This could represent up to 4% of your business turnover!

This is one of a series of **free** partnership events run by the Working Well Together (WWT) campaign in partnership with Envirowise and the Future Foundations Sustainable Initiative.

The aim of these events is to address key health and safety issues and sustainable challenges, through the design phase and construction delivery.

If you are a small building company or a small design practice, and would like to receive up to date and informed advice on these essential issues, then this **free** event is a **must**.

Book now!

For further information call: 0117 973 6891

There is no charge for the event, however numbers are restricted to two representatives per company.

E V E N T P R O G R A M M E
